About YouFine

Since **1983** Experience **40** YRS **10000**⁺ SKU

Founded in 1983, YouFine is recognized as a long-term leading supplier of high-quality metal sculptures. We produce the most exquisite stainless steel artwork sculpture that will both stand the test of time and add a contemporary edge to any space.

YouFine has a flagship store on various Chinese import-export trade platforms such as Alibaba, and Made-in-China, as well as international platforms like Amazon and eBay. We also have a presence on social media platforms like Facebook, Instagram, YouTube, and LinkedIn, where customers can find relevant information about our products and services.

YouFine has been involved in numerous large-scale landmark building projects and has received positive feedback from clients. We pride ourselves on providing excellent customer service and encourage open communication with clients. YouFine welcomes clients to visit our factory for on-site inspections, and we are committed to maintaining transparency throughout the production process, including the selection of high-quality materials and adherence to stringent quality control standards.

At present, we have built a stable and good relationship with customers from many countries, such as Germany, France, England, Switzerland, Italy, Norway, Netherlands, the United States, Australia, Saudi Arabia, India, and South Korea. We have gained a high prestige for our choice of material and excellent workmanship.

YouFine Factory

Our stainless steel sculpture art is hand-forged in high-quality stainless steel. You can place our stainless steel sculptures in any environment for a long time and continue to show their beauty.

We have professional designers and artists, and we can customize any large modern metal sculpture based on your designs or requirements. We're good at modern metal sculptures, stainless steel sculptures, public art sculptures, corten steel sculptures, and products with modern and unique ideas.

YouFine offers a large collection of stainless steel sculpture art that ranges in size from small gallery-sized sculptures that are suitable for private collectors to sculptures designed to suit medium to large installations. These sculptures are appropriate for use in residential homes, and corporate foyers, both indoor and outdoor through to very large sculptural installations, suitable for development projects, public installations, shopping spaces, and architectural installations.

**Our Advantages
of Metal Sculptures**

Customization capabilities

1、 We have a professional designer team that supports hand-drawing, 3D drawings and model design.

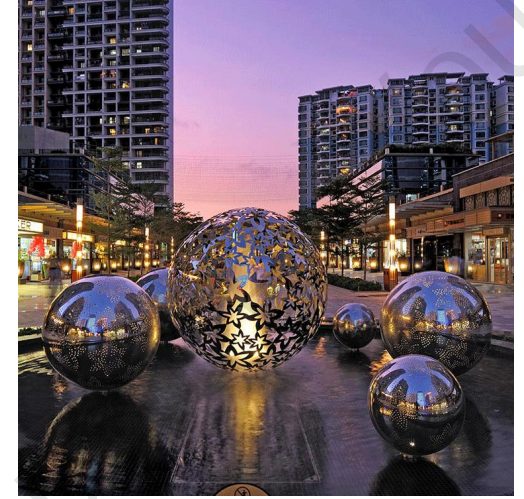

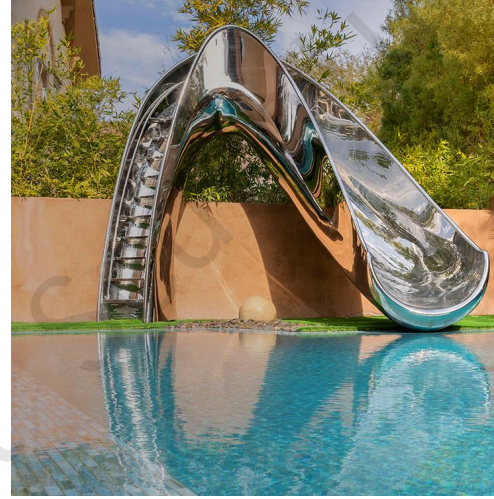

CUSTOM
PROJECT DESIGN

Customization capabilities

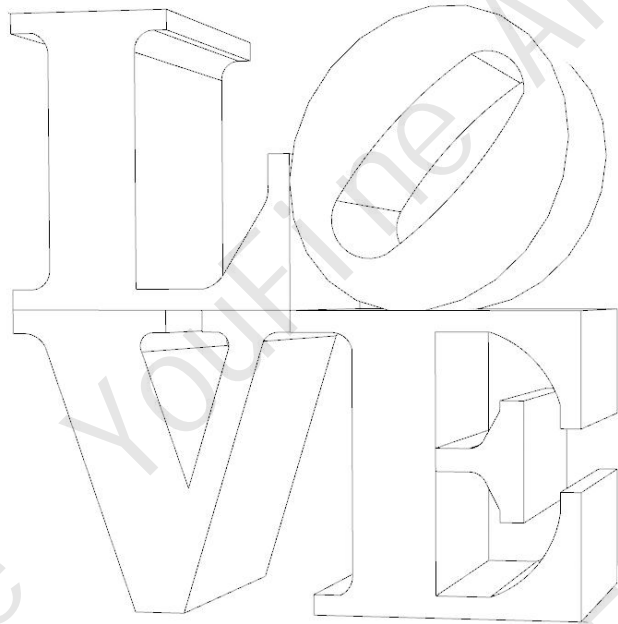

2、 Supports a variety of functional customizations, including water spray, lighting and power.

Customization capabilities

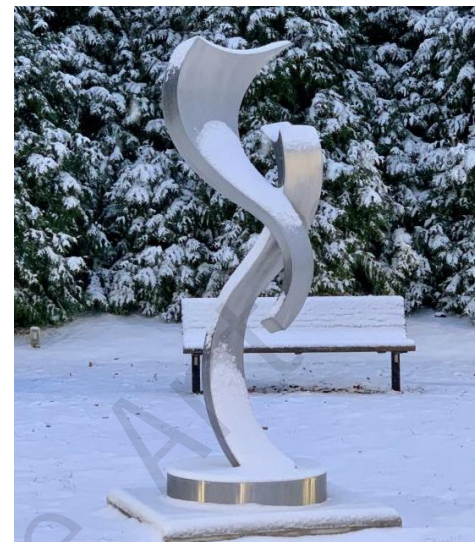

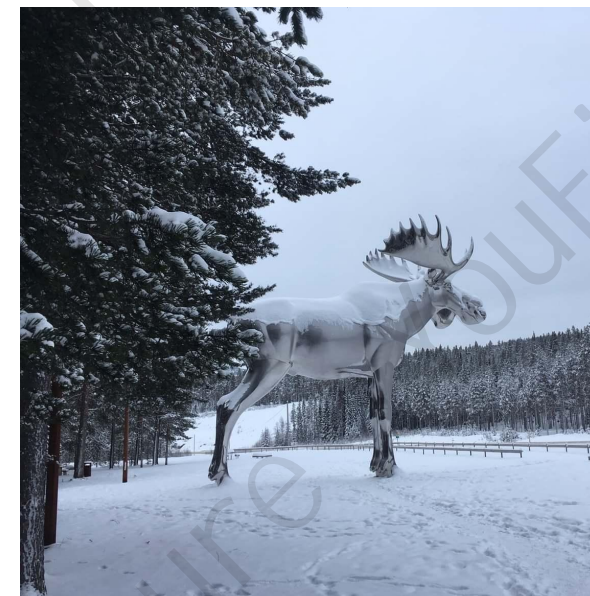

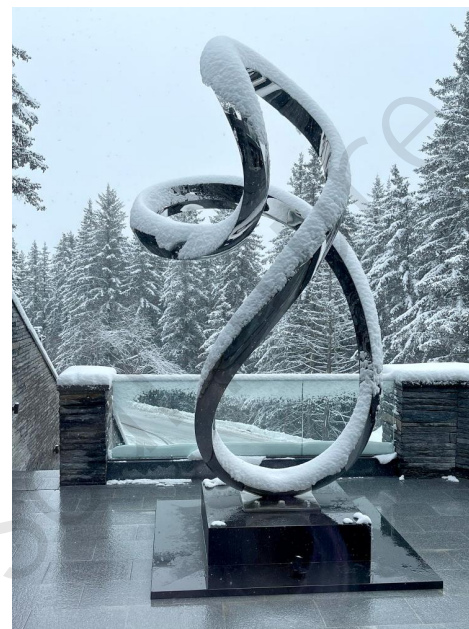

3、 High degree of reduction.

High-quality Material

The factory uses international standard 304/316 stainless steel materials. The sculptures are not easy to rust and ensure the quality and beauty of the sculptures.

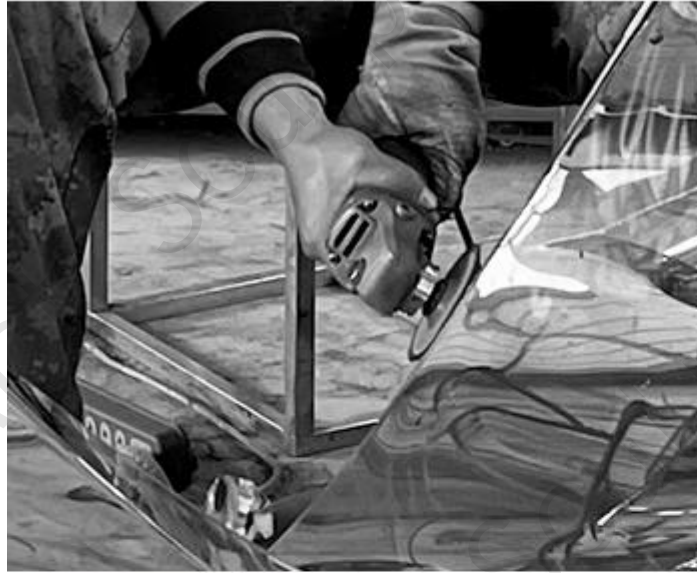

Process Advantages

Advantages of polishing technology

Repeated manual polishing, paying attention to every detail, to ensure the mirror effect of sculpture polishing.

Advantages of welding technology

Use a combination of full welding and spot welding to make the sculpture more integrated and have a smooth surface.

Advantages of coloring process

There are many ways of coloring - spray painting, spray plating, electroplating, etc. The factory will provide corresponding solutions according to the effect the customer wants.
